DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 6 and 7 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 6, line 2, "the color, number, or symbol of each said pocket" lacks a proper antecedent basis.

In claim 7, line 2, "said marble" lacks a proper antecedent basis.

Claim Rejections - 35 USC §§ 102 and 103

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Art Unit: 3711

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 1 and 3/1 are rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Patent Number 5,839,724 (Bunac, Jr., hereinafter Bunac).

Regarding claims 1 and 3/1, Figures 1-4 of Bunac show a game board 10 enclosed by the railing 16 of a pool table, pockets 18 and removable bumper 50.

6. Claim 4 is rejected under 35 U.S.C. 103(a) as being unpatentable over Bunac as applied above in view of U.S. Patent Number 4,986,542 (Bonnet).

It is old and well-known in the gaming art to use foldable legs in combination with playing surface for storage purposes. See Bonnet at column 2, lines 26-30.

7. Claims 1, 5 and 7 are rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Patent Number 5,415,401 (Nagasaka).

Regarding claims 1 and 7, Figure 1 of Nagasaka shows a game board having a baseboard 3 and enclosed by a railing 7.

Art Unit: 3711

Baseboard 3 includes a pocket 60 and bumpers 41,42 (Figure 2). Ball 4 corresponds to the recited rollable playing piece that can be shot into pocket 60 via flippers 5b. Special effects, both visual and audio, are activated when the ball hits the bumpers or enters the pocket. See column 7, lines 8-29.

Regarding claim 5, the Nagasaka ball can be broadly considered a marble.

Allowable Subject Matter

8. Claim 2 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

9. Claim 6 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

10. Claims 8-10 are allowed.

Conclusion

11. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
